

Drug Addict (It Happened to Me)

The book features extended interviews with four or five children/young adults who are drug addicts. The interviews are carefully constructed to cover both the emotional as well as the practical consequences. The aim is not to be sensational but sympathetic and informative. Extended endmatter provides advice, contact numbers and addresses. The text itself is in a question and answer format, recording as literally as possible the answers of the person being interviewed. Talking points and black and white photographs are also included.
