

# BOMB:By Steve Sheinkin: The Race to Build and Steal the Worlds Most Dangerous Weapon (bomb)

In December of 1938, a chemist in a German laboratory made a shocking discovery: When placed next to radioactive material, a Uranium atom split in two. That simple discovery launched a scientific race that spanned 3 continents. In Great Britain and the United States, Soviet spies worked their way into the scientific community; in Norway, a commando force slipped behind enemy lines to attack German heavy-water manufacturing; and deep in the desert, one brilliant group of scientists was hidden away at a remote site at Los Alamos. This is the story of the plotting, the risk-taking, the deceit, and genius that created the worlds most formidable weapon. This is the story of the atomic bomb. Bomb is a 2012 National Book Awards finalist for Young Peoples Literature. Bomb is a 2012 Washington Post Best Kids Books of the Year title. Bomb is a 2013 Newbery Honor book.

Steve Sheinkin (Author), Roy Roy Samuelson (Narrator), Listening Library (Publisher) & 1 more. #10 in Books > Audible Audiobooks > Childrens Books > Science & Nature.
