

Handbook of Perfumes & Flavors

This unique, comprehensive source book provides a thorough guide to the compounding of basic floral perfumes for cosmetics, soaps, disinfectants, deodorants, and flavors for food. Regardless of scientific and technical education or experience in this field, this book will assist those involved in compounding perfume and flavor for all aspects of their application in the chemical industry.

Contents: Forewords v Preface ix Explanatory Notes x

I. Odors
1 Introduction
1 Historical Classification of Odors
4 Subjective Classification of Odors
12 General Classification of Odorous Substances 13

II. Natural Essences
