

The Osiris Curse: A Tweed & Nightingale Adventure

Steampunk Sherlock Holmes meets The X-Files with a dash of romantic tension and a large dose of adventure. When Nikola Tesla is murdered and blueprints for his super weapons are stolen, Tweed and Nightingale are drawn into a global cat and mouse chase with his killers. What's more, it seems that the people who shot Nikola Tesla are the same people responsible for Octavia's mother's disappearance. As the two cases intertwine, Tweed and Nightingale's investigations lead them to a murdered archeologist and a secret society called The Hermetic Order of Osiris. Fleeing the cult's wrath, they go undercover on the luxury airship, The Albion, setting out on her maiden voyage to Tutankhamen's View, a five-star hotel built in the hollowed-out and refurbished Great Pyramid of Giza. In Egypt, the duo begins to unravel the terrible truth behind Tesla's death, a secret so earth-shattering that if revealed it would mean rewriting the entire history of the world. But if the cult's plans aren't stopped, Britain may lose the future.
